That lustre of her melanated skin is enriched with colour and history

The way she conveys it through style creates a sense of felicity

The way it becomes more luminous every golden hour is vastly mesmerizing

Her innate two-toned lips are so captivating

As if to lure a man into an unending fantasy

The charcoal hue of her kinky hair is so unique

Afro dreadlocks Cornrows bantu-knots micro-braids box braids...

each style is an extraordinary tapestry originating from a rich ancestry

No matter what she wears she always looks debonaire

Even more so when adorned in white and gold
