Flextangle

Description

Colour and fold your very own flextangle

Space Considerations

Any type of space where kids can be seated to do a craft

Competencies

- Artistic expression
- Development of fine motor skills
- Logic and sequencing

Materials

- Flextangle templates
- Crayons, pencil crayons or markers
- Scissors

Preparation

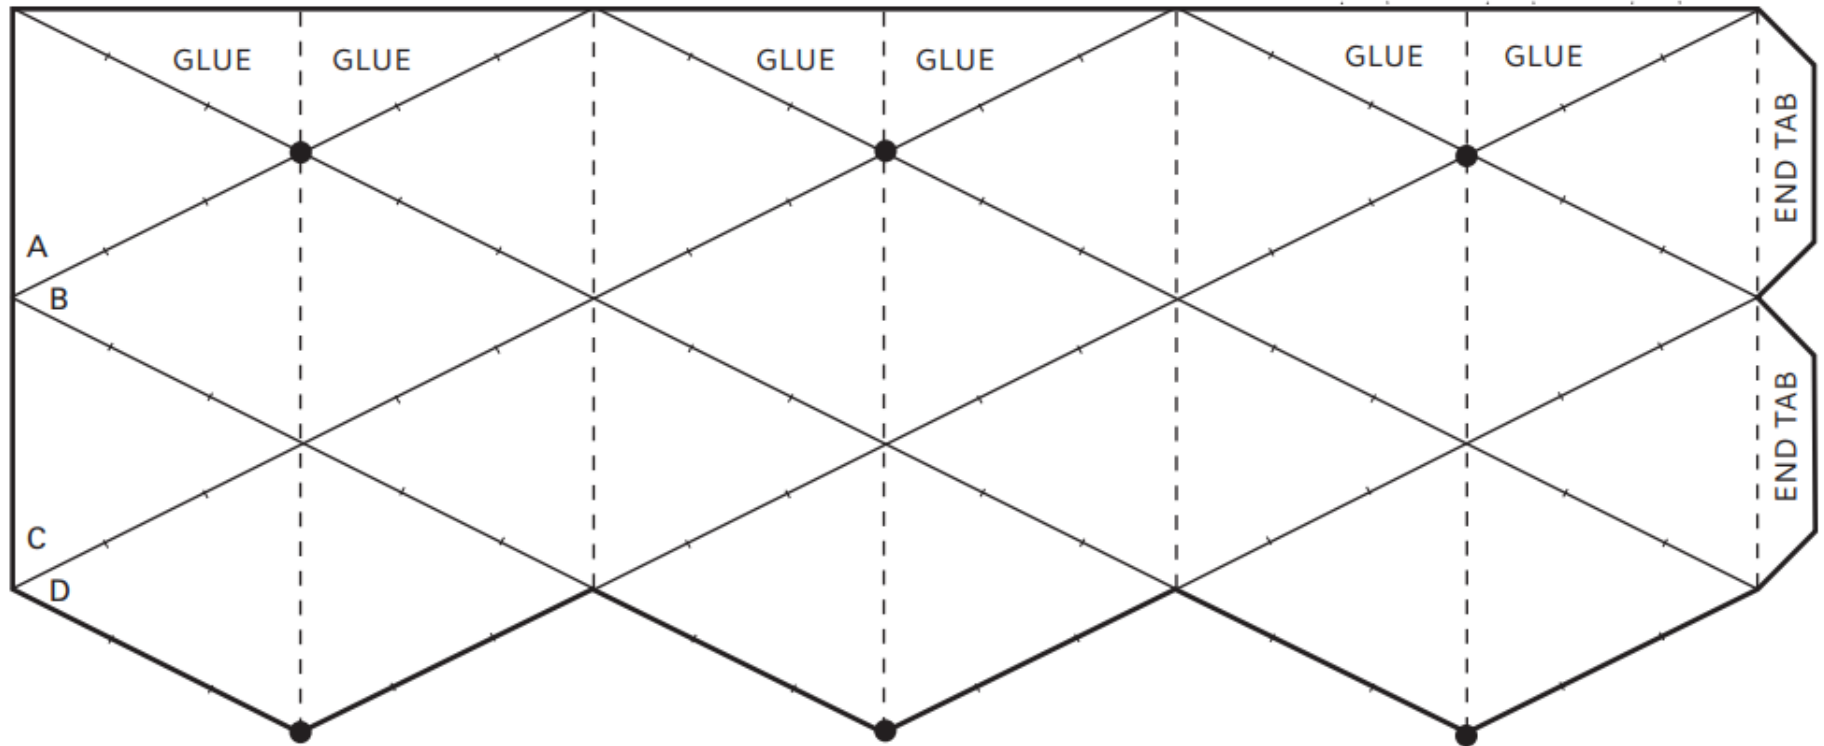

- Watch the YouTube video with instructions for [making a flextangle](#) in order to guide and assist participants during the program

Implementation

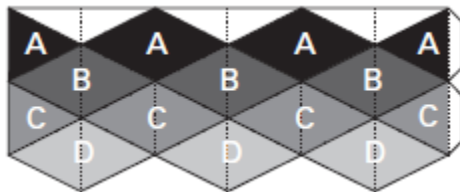

1. Distribute the flextangle template to participants
2. Participants should colour and draw designs in their flextangles and then follow the numbered instructions

Book Suggestions

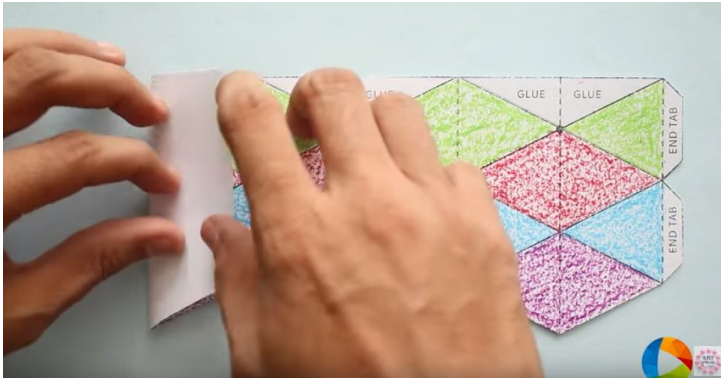

The Canadian Kids' Guide to Outdoor Fun by Helaine Becker
Mr. Lemoncello's Library Olympics by Chris Grabenstein

1. Cut out the flexangle by cutting along the outside border
2. Colour your flexangle using the following pattern guide:

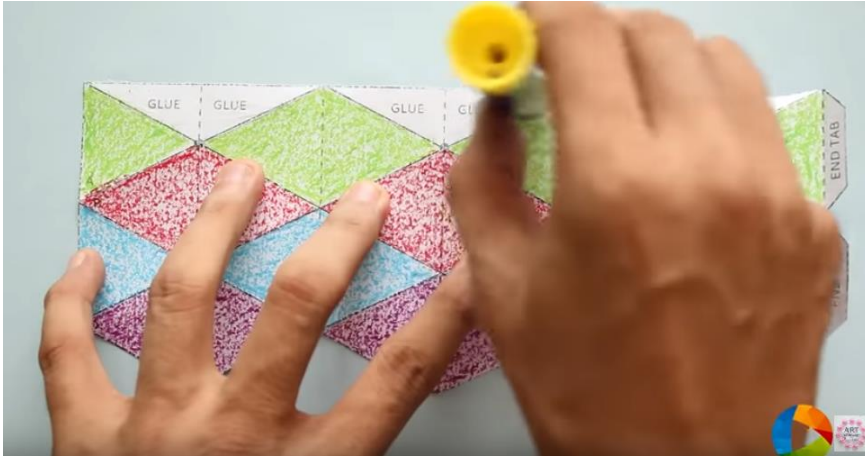

3. Crease all the dashed lines by folding them on their face and then unfolding

4. Crease all the diagonal solid lines by folding them on their back and then unfolding

5. Gently fold the paper lengthwise to match dot to dot and form a tube
6. Add glue on the tab marks and press together

7. Add glue to the end tabs, tuck each one into the open end of the tube, and then press to seal
